

May

Dear Parents,

It's hard to believe that we only have 33 school days left! I hope everyone had a wonderful Mother's Day!

Here is what we are working on this month:

### READING:

Harcourt Reading – continuing with long vowel word patterns, such as –ai, –ay, –ind, –ild, –oll and –old. We also are reviewing high frequency words from List 1, 2 & 3.

We are working hard on our listening comprehension skills as well as reviewing identifying a noun in a sentence. The children have also been working on identifying the verb within a sentence and we will be discussing what the “main idea” of a paragraph is.

Math Concepts: Money, money money! Please practice identifying all coins as well as counting pennies, nickels and dimes. We will soon begin Chapter 10 – Solving Addition & Subtraction problems with double facts, related facts, and fact families.

Tesago Walk-About & Ice Cream Social, May 13<sup>th</sup> @ 6:30! See you there!

Grade 1 field trip to see Jigsaw Jones, May 17<sup>th</sup>. Money and permission slip is due THIS FRIDAY, May 13<sup>th</sup>.

Jaime Michelucci
